A few words to the gentler ears are so harrassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during a summer season, the wear of body and mind is given all agravated. Here, then, is a necessity for a slimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities.
